Résumé

Hey there! I'm a Full Stack Web Developer with a passion for turning ideas into reality. I specialize in designing, building, and maintaining web applications that not only look great but also drive success.

With hands-on experience in modern technologies like Node.js, React, Vue.js, and MongoDB, I love crafting scalable and secure APIs that power complex systems. I'm always on the hunt for my next challenge, especially when it comes to cloud infrastructure and advanced web frameworks.

Expérience

VIA UNiFi Information Technology
Full Stack Developer
septembre 2025 - octobre 2025 (2 mois)
Doubaï, Émirats arabes unis

Freelance
Développeur
août 2025 - octobre 2025 (3 mois)

Antidots - Positive Technologies for All
Développeur Full Stack
septembre 2022 - août 2025 (3 ans)
Aix-les-Bains, Auvergne-Rhône-Alpes, France

Mission: Design and build modern, scalable web applications using various technologies and frameworks while ensuring the reliability and performance of our web applications.

Responsibilities:
- **Design and develop web applications** using technologies such as JavaScript, Vue.js, Nuxt.js, Nest.js, and Feathers.js.
- **Create and maintain RESTful APIs** with Mongoose and Node.js.
- **Work with databases** like MongoDB to store and retrieve data efficiently.

- **Integrate web applications** with both SOAP and RESTful APIs.
- **Test web applications** using tools like Cypress and Jest to ensure quality and performance.
- **Stay up-to-date** with the latest technologies and best practices in web development.
- **Collaborate with a team of developers** to ensure timely project completion with high standards.
- **Troubleshoot and debug web applications** to resolve issues and improve functionality.

Lannion-Trégor Communauté
4 ans

Ingénieur logiciel
septembre 2019 - août 2022 (3 ans)
Lannion, Bretagne, France

As a web development apprentice specializing in web development, my responsibilities include:

- **Creating and maintaining APIs** using technologies like Node.js and Express.
- **Working with databases** such as MySQL to store and retrieve data.
- **Testing web applications** using tools like PHPUnit and Cypress.
- **Collaborating with a team of developers** to ensure projects are completed on time and meet high standards.
- **Troubleshooting and debugging** web systems.
- **Communicating effectively** with team members and stakeholders.

Throughout my apprenticeship, I've had the opportunity to gain hands-on experience in building real-world applications. My goal is to become a well-rounded web developer, proficient in designing and creating modern, scalable, and reliable web systems.

Développeur Full Stack
septembre 2018 - août 2019 (1 an)
Lannion, Bretagne, France

Key Responsibilities:
- **Technical and functional design**: Collaborate in defining the architecture and functionality of applications, ensuring they meet both user requirements and technical standards.

- **Participate in application development**: Contribute to building robust and scalable applications using modern technologies, following best coding practices and ensuring optimal performance.
- **Create demonstrations of developed applications**: Develop and present functional demos to stakeholders, showcasing key features and functionalities, while gathering feedback for improvements.
- **Collaborate with cross-functional teams**: Work closely with designers, backend developers, and other stakeholders to ensure seamless integration and timely project completion.
- **Ensure code quality**: Write clean, maintainable, and efficient code, conducting code reviews and implementing improvements where needed.
- **Stay updated on industry trends**: Continuously learn and adapt to new tools, frameworks, and methodologies to improve development processes and application quality.

Formation

ENSSAT - École Nationale Supérieure des Sciences Appliquées et de Technologie
Diplôme d'ingénieur, informatique , multimédia et réseau · (2019 - 2022)

IUT Lannion
Diplôme universitaire de technologie (DUT), Informatique · (septembre 2017 - août 2019)

Damascus University
Diplôme d'ingénieur, Informatique · (2013 - 2016)
